THE HISTORY AND THE FUTURE

ABOUT US

Emporio Marmi Cattani is a brand launched in 2021 as a synthesis of:

- historical experience of quarry owned by **Cattani family**, cultivated according to a rational method and is able to guarantee very high production of constant quality material. Undisputed leader in white marble, on the market as Alba Ventura Srl company, synonymous of tradition in materials and production standards
- new marketing of the **color palette** of quarries Cattani, overturning the knowledge of area of Carrara focused only on the white materials, producing black and grey Colonnata materials very famous in the past and giving for the future market the exclusivity of selection, variety and wide range of these 3 tons really in interior & architectural trend
- providing **project and cut to size service**, guarantees to the customers an innovative approach and highest standards of marble processing, thanks to the control directly all the entire supply chain

*Alba Ventura Srl, part of the group SC HOLDING SRL, born from the brothers **Vernazza**, that from the third generation in construction and marble business, continue to follow aims and values that motivate families **Vernazza & Cattani** to make management.*

COLOR PALETTE

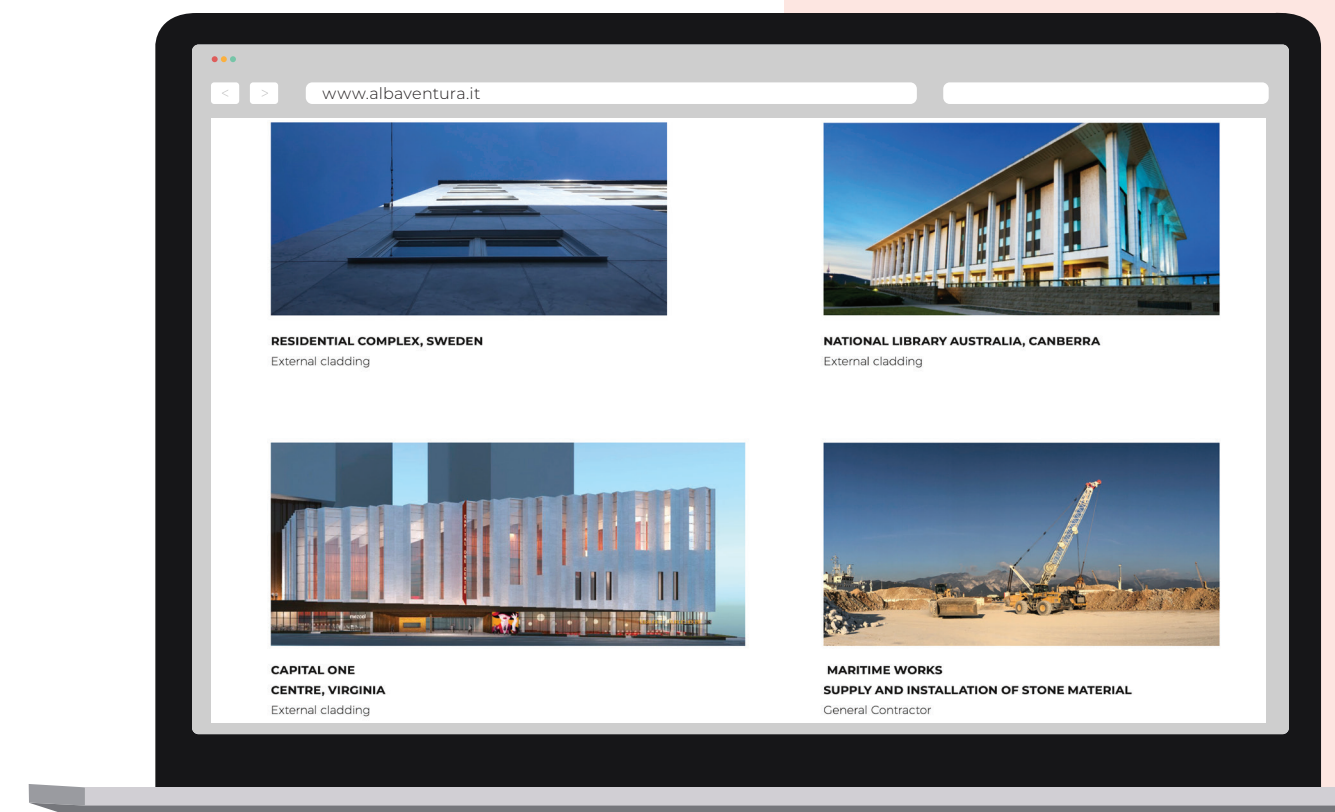

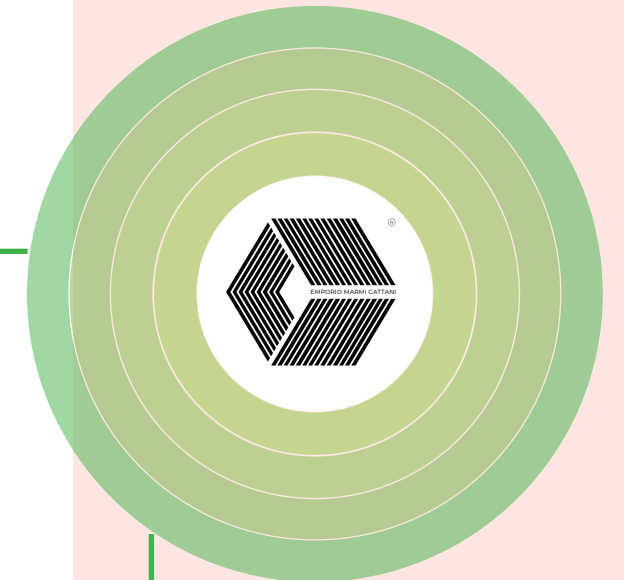

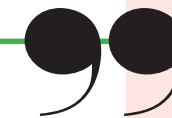

BIANCO CATTANI®

- HIGH QUALITY
- GRANITIC RESISTANCE
- CONTINUITY FOR BIG PROJECTS

NEW TRAND AND GUARANTEE

OUR SOLUTION

1. Coherence and roots in tradition

The project includes an historical territorial knowledge and the strenght of a unique product "the white Cattani" recognized all over the world.

3. Innovation

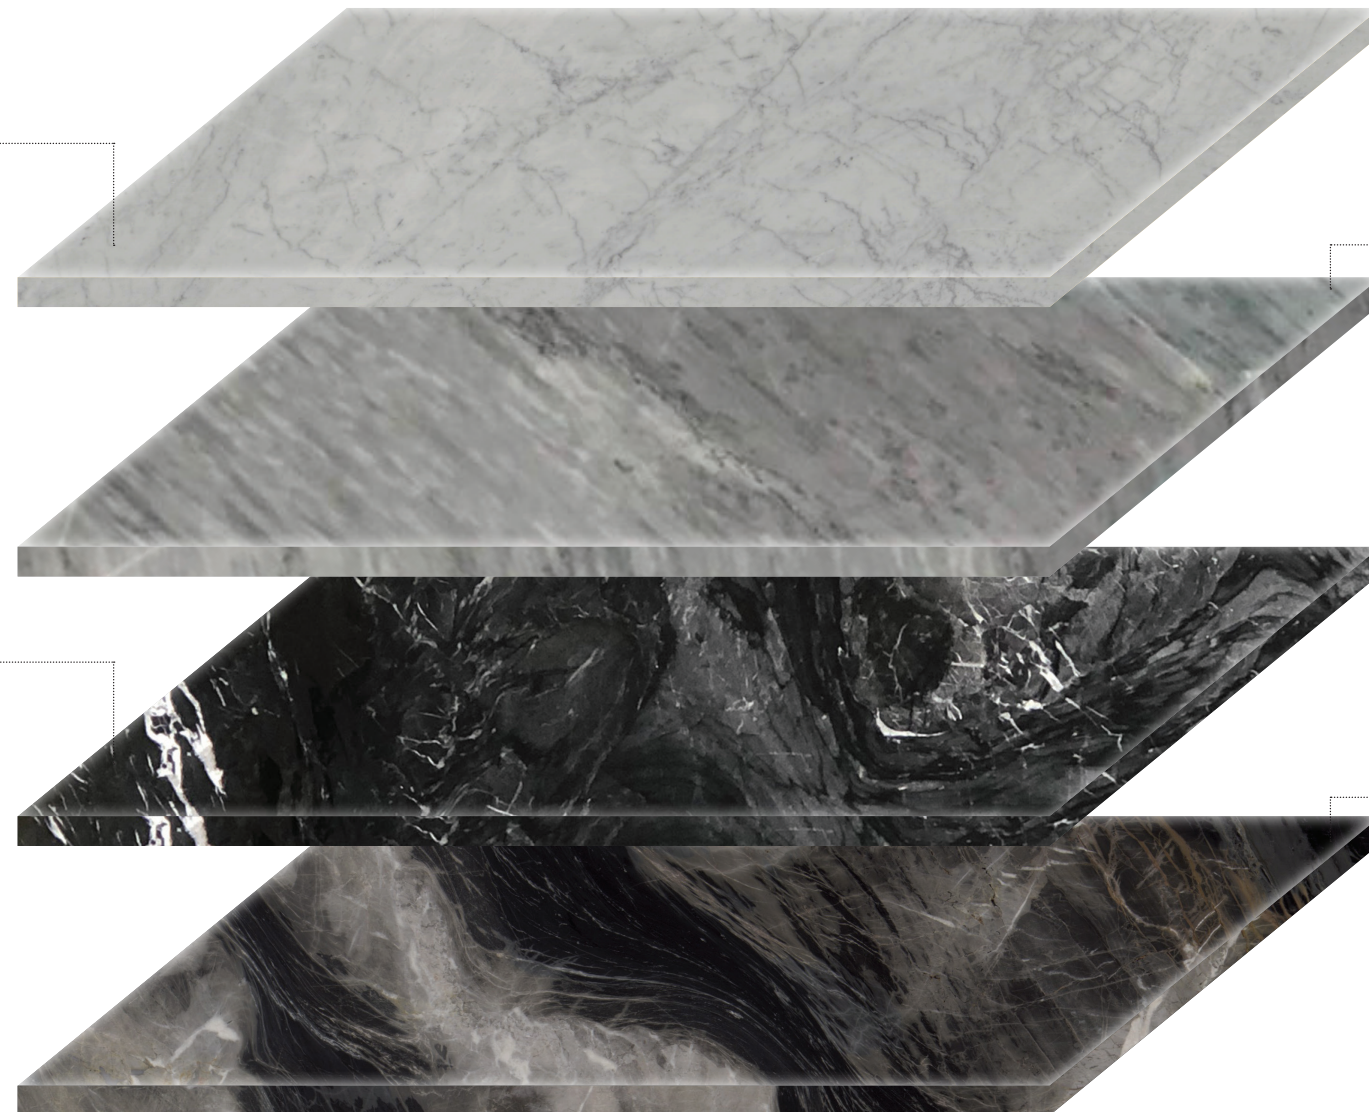

From tradition to innovation the street is really smart and fast; Emporio Marmi Cattani will offer a full set of colors of Carrara area.

2. Made in Italy

An innovation in colors to develop new projects, where the mix of white, grey and black tones will always remeber the classicism of Made in Italy.

4. Contemporaneity

Modernity is part of the project and the philosophy of our corporate Group and our mission regarding sustainability and, in particular, circular economy, it's a matter we are very close and aware of.
